Cisco Excess

IP Phones, Routers, Wireless, Catalyst, Nexus, UCS Servers, & Accessories

Cisco Excess is a specially designed product suite offered by Cisco so customers can purchase Cisco approved equipment more efficiently. DHD offers the complete line of Cisco Excess equipment. The Cisco Excess product suite encompasses virtually the entire portfolio including IP phones, routers, Catalyst and Nexus switches, UCS blade and rack servers, and accessories.

ALL CISCO EXCESS PRODUCTS:

- Have a valid version of the IOS loaded and are licensed by Cisco
- Are eligible for SMARTnet support purchased though a Cisco Authorized Partner (subject to Cisco's SMARTnet policies)
- Are sourced from Cisco's Excess Used Inventory and designated with a "WS" at the end of the part number
- Are fully functional and may include minor cosmetic imperfections

WHY CUSTOMERS CHOOSE CISCO EXCESS

DHD's customers can purchase products that have gone through Cisco's own testing process, are licensed with a valid IOS, up to 90% off list, and are SMARTnet eligible.

If you have any questions, or would like to learn more about Cisco Excess, call (805) 845-4620 or email us at info@dhd.com.
